

April 14, 2015

Good Morning;

Children's Mental Health Services is looking forward to submitting our application to be the Lead Agency for Hastings, Prince Edward and Northumberland counties on Friday, April 17th, 2015.

We are dedicated to continuing to work with our community partners like you, in a collaborative, client-focused way, to determine how best to serve the children, youth and families within our communities.

Our goal is to continue to strengthen our partnership with your organization and we will look to you and the children, youth and families within our communities for input, synergy and to develop a shared vision of what services should look like.

We are committed to enhancing timeliness in the provision of services for children and youth, increased consistency in service provision and enhancing accountability. We look forward to continuing our collaboration across all child and youth serving sectors and with the adult mental health sector. Our work with our education and health partners will grow in the future to optimize the mental health and well-being of all children and youth in our communities.

With our never-ending quest for improvement, we are proud of our Accreditation achievement with the Canadian Centre for Accreditation and will continue to lead the development of provincial service standards, guidelines and outcome measures in the future. We will advocate for the needs of our communities at local, Provincial and National tables on behalf of our children, youth and families.

Sincerely,

Susan Sweetman
B.S.W., M.P.A., L.L.M.
Executive Director
Children's Mental Health Services
Serving Hastings and Prince Edward Counties
